

DECKING NEWS

Get Ready for This Year's Decking Season

The days are getting longer and the weather looks like it is finally starting to warm up. Spring is just around the corner which means starting to prepare for spending time relaxing outside, perhaps on some new decking?

Evolution Decking Screws

Evolution Fasteners (UK) Ltd stock a range of decking screws ideal for all weather applications e.g. patios, fencing, decks and walkways. They are available with a 1,000hr salt spray coating or in stainless steel for use in timber with aggressive ACQ/salt based timber treatments or hardwoods with high tannin content.

Green 1,000hr salt spray coated decking screw

Stainless steel decking screw

Pro-Tip
Pre-drill before use in hardwood.

Product Code	Description

Why use Evolution decking screws?

Describing the key design features of Evolution's decking screws, their Technical Manager explains why you should be using Evolution decking screws:

- Stick-fit, square recess means fast and efficient fastening
- Countersunk head with nibs provides a flush, clean finish
- Deep, coarse thread for maximum holding power
- Type 17 cutter point grabs on contact for rapid advancement
- Available in A410 stainless steel for ultimate corrosion protection

For Free Next Day Delivery - Call Evolution.

Evolution offer free next day delivery in mainland UK for orders of £150 (net) and over. They can also provide prices for timed or Saturday deliveries and can deliver direct to site where required, at no extra cost. For more information or to place an order in time for the decking season, contact the Evolution Customer Service Team.
