## New Stainless Steel Drywall Screw Unveiled

Evolution Fasteners (UK) Ltd have today unveiled the latest addition to their range of specialist drywall screws.

Described as the 'ultimate' drywall screw, Evolution stainless steel drywall screws have been specifically designed to perform in applications where standard coarse thread, fine thread or self-drill drywall screws would usually be used - for fixing to timber, light drywall track (0.5mm - 0.7mm) and heavy drywall track (1.0mm - 2.5mm).

### As seen in: 'Guide to Evolution Specialist Drywall Screws' Out Now

In line with the addition of stainless steel drywall screws to their range of specialist drywall screws, Evolution have published the latest in the series of their quick reference guides to their product ranges - the Guide to Evolution Specialist Drywall Screws.

The A4 guides are not only useful as desktop tools for sales teams, they are ideal for use as point of sale materials. The new guide is being sent out to Evolution customers and is also available to download from the Tech Support area of Evolution's website [www.evolutionfasteners.co.uk](http://www.evolutionfasteners.co.uk)

Additional copies of the specialist drywall guide, or Evolution's other quick reference guides (on their tek screws for heavy steel, stitching screws, extra long length screws and bi-metal/stainless steel fasteners) can be obtained from their Marketing Department by calling 0141 646 0055 or e-mailing [marketing@evolutionfasteners.co.uk](mailto:marketing@evolutionfasteners.co.uk)

- Countersunk head with nibs for flush finish
- 4.2mm x 42mm
- Coarse hi-lo thread for rapid advancement in base material
- A304 stainless steel for ultimate corrosion resistance
- Self-drilling point suitable for use in timber and 0.5mm - 2.5mm drywall track
- SSDW4242  
Box quantity: 200

### Free samples available

Evolution believe in the quality of their products and do not just expect customers to take their word for it. They offer free samples to allow customers to try products for themselves. Samples of the new stainless steel drywall screws can be obtained from Evolution's Sales Team by calling 0141 646 0055 or e-mailing [sales@evolutionfasteners.co.uk](mailto:sales@evolutionfasteners.co.uk)
