

ANCHORBOLTS NEWS

New Evolution Anchorbolts Performance Data

Evolution Fasteners (UK) Ltd have today announced new and improved performance data for their range of anchorbolts based on third party testing carried out in accordance with European Technical Approval Guideline (ETAG) 001 Part 006.

Updated Product Datasheet Now Available

Evolution have published the new performance data in an updated product datasheet for their anchorbolts range. It is available to download from the Tech Support area of Evolution's website or by calling their Sales Team.

For Free Samples or More Information...

Evolution believe in the quality of their products and do not expect customers to take their word for it. Free samples are available to allow customers to try Evolution anchorbolts for themselves by contacting the Sales Team.

Evolution's Sales and Technical Teams are also just a phone call away for further product information or technical performance data.

Premium Quality Products at Competitive Prices

When compared with similar products available in today's market, Evolution anchorbolts represent excellent value for money.

The range offers high performance, premium quality products at extremely competitive rates.

Need Free Next Day Delivery?

Just spend a minimum of £150 by 3pm and Evolution will send your goods on a next day delivery (within mainland UK) for FREE.
