BMWD4.8-38-3	4.8 x 38mm Bi Metal Timber Fix CSK Head w/o Rib Tek 3 (200)
BMWD5.5-80-3	5.5 x 80mm Bi Metal Timber Fix CSK Head w/o Rib Tek 3 (100)
SSMSHH6.3-32-GP	6.3 x 32mm Stainless Steel Masonry Screw Hexagonal Head(200)
SSMSHH6.3-45-GP	6.3 x 45mm Stainless Steel Masonry Screw Hexagonal Head(200)

BMDW4.8-42

BMWD4.8-38-3

BMWD5.5-80-3

SSMSHH6.3-32-GP

SSMSHH6.3-45-GP

Bi-Metal Drywall Screws

1. Reduced width, self drilling point for quick penetration through steel and timber sections,
2. Hi-Lo thread form for superior pull out resistance in steel and timber sections,
3. Double countersunk, nibbed head for countersinking in cementitious and tough boards,
4. A2 (SAE 304) Stainless Steel body and head for enhanced corrosion resistance.

Bi-Metal Wing Drill

1. Tek 3 drill point for self drilling through light steel sections,
2. Reamer wings to prevent timber jacking during instalation,
3. Coarse thread for superior pull out resistance,
4. Countersunk head for flush finish in board materials.

Order with Free Next Day Delivery* from Evolution
