## **QUALITY PROCEDURES MANUAL**

### **INTRODUCTION**

This Quality Procedures Manual is the means by which Evolution Fasteners (UK) Ltd meets and where possible exceeds the requirements and expectations of our customers.

We are obliged to ensure that our Quality Policy is fully and completely understood by our employees, and that our procedures are implemented and maintained at all times. This Quality Procedures Manual is written in accordance with the requirements of ISO 9001:2015. All of the components of our Quality Management System will be periodically and systematically reviewed by both internal and external Quality Audit procedures.

Cecilia Leung, appointed by top management, is responsible for the control of all matters relating to the implementation of these procedures.

The assurance of quality is fundamental to all of the activities undertaken by Evolution Fasteners (UK) Ltd. All personnel at every level in the Organisation's structure shall practise the procedures established and reflected in this Quality Procedures Manual.

Our quality management system adopts a system process approach with an emphasis on risk based thinking. In this way we can ensure that we deal with potential problems proactively with the intention of mitigating issues before they occur.

# **Evolution Fasteners (UK) Ltd**

## **QUALITY PROCEDURES MANUAL**

### **COMPANY PROFILE**

Evolution Fasteners operate in the UK, Europe and North America. In addition to manufacturing and distributing a wide range of premium quality fasteners, we also offer Technical Consultancy Services to support our products including the design and manufacture of bespoke fasteners.

We are dedicated to quality in everything we do, from our fasteners to our customer service.

The team here at Evolution have valuable experience in many different areas of the construction industry and are on hand 8.30am to 5.30pm Mon-Fri to provide product information, pricing or advice on the applications our fasteners are suitable for.

## QUALITY PROCEDURES MANUAL

### TERMS AND DEFINITIONS

For the purposes of this document, the terms and definitions given in Annex SL and ISO 9000 apply:

An **Interested Party** is defined as a person or organisation that can affect, be affected by, or perceive themselves to be affected by a decision or activity.

**Top Management** is a person or group of people who direct, and control, an organisation at the highest level.

**Objective** is a result to be achieved.

**Risk** is the effect of uncertainty.

**Documented Information** is information required to be controlled and maintained by an organisation and the medium on which it is contained.

**Process** is a set of interrelated or interacting activities which transforms inputs into outputs.

**Performance** is a measureable result in relation to the management of activities, processes, products and services, systems or organisations.

**Outsource** is to make an arrangement for an external person or organisation to perform part of a function or process.

**Monitoring** is to determine the status of a system, a process or an activity.

**Measurement** is the process to determine a value.

**Correction** is the action taken to eliminate a nonconformity.

**Corrective Action** is the action taken to eliminate the cause of a nonconformity.

**Continual Improvement** is a recurring activity to enhance performance.

## QUALITY PROCEDURES MANUAL

### 4 - CONTEXT OF THE ORGANISATION

<b>4.1</b>	<b>Understanding the organisation and its context</b>
Summary of requirements	<p>We must determine the external and internal factors, relevant to our purpose and strategic direction, which affect our ability to achieve the intended result(s) of the Quality Management System.</p> <p>We must monitor and review the information about these external and internal issues.</p>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	As part of the implementation of this Quality Management System, top management has considered the internal and external issues relevant to our organisation and that affect our strategic direction.
2.	We have documented these issues into our Scope Document (Doc Ref: SCOPEQMS).
3.	<p>Changes or additions to our external and internal issues will be reviewed as part of our management review. Issues that could be considered are:-</p> <ul style="list-style-type: none"> <li>• Staff</li> <li>• Customers</li> <li>• Products and services</li> <li>• Legal and regulatory requirements</li> <li>• Plant, equipment and machinery</li> <li>• Resources</li> <li>• Environment</li> <li>• Operational sites</li> </ul> <p>This list is not exhaustive and any issue of an internal or external nature that could or does affect our Quality Management System will be considered.</p>
4.	We will monitor and review this information as part of the management review process.

## QUALITY PROCEDURES MANUAL

### 4 - CONTEXT OF THE ORGANISATION

<b>4.2</b>	<b>Understanding the needs and expectations of interested parties</b>
Summary of Requirements	<p>We must determine:</p> <ul style="list-style-type: none"><li>a) who our interested parties are and</li><li>b) the requirements of those interested parties that are relevant to the quality management system.</li></ul> <p>We must monitor and review information about these interested parties and their relevant requirements.</p>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	As part of the implementation of this Quality Management System, top management has considered the interested parties that are relevant to our organisation.
2.	We have documented the effect that these interested parties have on our ability to consistently provide the products / services that we offer to ensure that we meet customer, legal and regulatory requirements.
3.	This information is contained within our Scope Document (Doc Ref: SCOPEQMS) and Master Risk Register (Doc Ref: MRRQMS).
4.	The information we hold on our interested parties is reviewed as part of the management review process.

## QUALITY PROCEDURES MANUAL

### 4 - CONTEXT OF THE ORGANISATION

<b>4.3</b>	<b>Determining the scope of the quality management system</b>
Summary of Requirements	<p>We are required to determine the boundaries and applicability of our quality management system to establish its scope.</p> <p>We must consider the following when determining the scope:</p> <ul style="list-style-type: none"> <li>a) the external and internal issues referred to in 4.1;</li> <li>b) the requirements of relevant interested parties referred to in 4.2;</li> <li>c) the products and services that we provide.</li> </ul> <p>We must apply all of the requirements of ISO 9001 if they are applicable within the determined scope of our quality management system.</p> <p>Our scope must be documented and must state the types of products and services covered, as well as providing justification for the exclusion of any requirement of the ISO 9001 Standard that we determine is not applicable to the scope of our quality management system.</p> <p>Justification for any exclusion may only be claimed if the requirements determined as not being applicable do not affect our ability or responsibility to ensure the conformity of our products and services and the enhancement of customer satisfaction.</p>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	As part of the implementation of this Quality Management System, top management have determined the boundaries and applicability in order to establish the Scope Document (Doc Ref: SCOPEQMS).
2.	The scope of our Quality Management System takes into account the internal and external issues we have previously identified as well as the requirements of interested parties and of the products and services that we provide.
3.	Our scope document makes reference to the exclusions of any requirement of the ISO 9001 Standard, where applicable. Justification for the exclusion of these clauses has also been documented.

## QUALITY PROCEDURES MANUAL

### 4 - CONTEXT OF THE ORGANISATION

<b>4.4</b>	<b>Quality Management System and its processes</b>
Summary of Requirements	<p>We must establish, implement, maintain and continually improve our quality management system, including the processes needed and their interactions, in accordance with the requirements of the ISO 9001 Standard.</p> <p>The processes required to maintain our quality management system must be defined and:</p> <ul style="list-style-type: none"> <li>a) determine the inputs required and the outputs expected from these processes;</li> <li>b) determine the sequence and interaction of these processes;</li> <li>c) determine and apply the criteria and methods (including monitoring, measurements and related performance indicators) needed to ensure the effective operation and control of these processes;</li> <li>d) determine the resources needed for these processes and ensure their availability;</li> <li>e) assign the responsibilities and authorities for these processes;</li> <li>f) address the risks and opportunities as determined in accordance with the requirements of 6.1;</li> <li>g) evaluate these processes and implement any changes needed to ensure that these processes achieve their intended results;</li> <li>h) improve the processes and the quality management system.</li> </ul> <p>To the extent necessary, we must:</p> <ul style="list-style-type: none"> <li>a) maintain documented information to support the operation of our processes;</li> <li>b) retain documented information to have confidence that the processes are being carried out as planned.</li> </ul>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	The processes required to effectively implement this quality management system have been defined as part of our Process Flowchart (Doc Ref: PFCQMC). This chart demonstrates the sequence and interaction of these processes.
2.	Processes are further defined as part of the Process Overview Sheets (Doc Ref: POSQMS) which break down each process into its required inputs, outputs, resource requirement and control methods (including performance measurement).

## QUALITY PROCEDURES MANUAL 4 - CONTEXT OF THE ORGANISATION

4.4	Quality management system and its processes (Continued)
-----	---

	STATEMENT/PROCEDURE
--	---------------------

3.	In order to support the operation of these processes we have further documented procedures, work instructions, method statements, risk assessments, job descriptions, best practice guidelines, toolbox talks, operational records as well as this Quality Procedures Manual
4.	The risks and opportunities that apply to each process are recorded on the Master Risk Register (Doc Ref: MRRQMS).
5.	Responsibility and authority for each process is defined within individual employee job descriptions.
6.	The evaluation of the quality management system processes takes place as part of the management review described in section 9.3 of this quality procedure manual. During the management review improvements will be identified and recorded as part of the meeting minutes.

## QUALITY PROCEDURES MANUAL

### 5 - LEADERSHIP

<b>5.1</b>	<b>Leadership and Commitment</b>
<b>5.1.1</b>	<b>General</b>
Summary of Requirements	<p>Top management must demonstrate leadership and commitment with respect to the quality management system by:</p> <ul style="list-style-type: none"> <li>a) taking accountability for the effectiveness of our quality management system;</li> <li>b) ensuring that the quality policy and quality objectives are established for the quality management system and are compatible with the context and strategic direction of the organisation;</li> <li>c) ensuring the integration of the quality management system requirements into the organisation's business processes;</li> <li>d) promoting the use of the process approach and risk-based thinking;</li> <li>e) ensuring that the resources needed for the quality management system are available;</li> <li>f) communicating the importance of effective quality management and of conforming to the quality management system requirements;</li> <li>g) ensuring that the quality management system achieves its intended results;</li> <li>h) engaging, directing and supporting persons to contribute to the effectiveness of the quality management system;</li> <li>i) promoting improvement;</li> <li>j) supporting other relevant management roles to demonstrate their leadership as it applies to their areas of responsibility.</li> </ul>

<b>STATEMENT/PROCEDURE</b>
----------------------------

1.	Top management take ultimate responsibility for the implementation and effectiveness of our quality management system.
2.	We have established a Quality Policy (Doc Ref: QPQMS) and Quality Objectives (Doc Ref: QQQMS) that are compatible with the context of our organisation and its strategic direction.
3.	The system described in this manual and its supporting documented information integrates into our business processes and promotes risk based thinking.

## QUALITY PROCEDURES MANUAL

### 5 - LEADERSHIP

<b>5.1</b>	<b>Leadership and Commitment</b>
<b>5.1.1</b>	<b>General (Continued)</b>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

4.	We have ensured that the resources required for the quality management system are available and the need for additional resources are identified and discussed as part of the management review process.
5.	As part of the implementation of this quality management system and as part of the induction process for new employees we have communicated the importance of the effectiveness of our system. We have done this by delivering our ISO 9001 Awareness Presentation. This process also encourages our employees to actively engage in the operation of our processes to identify opportunities for improvement.
6.	We will constantly monitor the performance of our quality management system as part of the management review process to ensure that we achieve our intended results.

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL 5 - MANAGEMENT RESPONSIBILITY

<b>5.1</b>	<b>Leadership and Commitment</b>
<b>5.1.2</b>	<b>Customer focus</b>
Summary of Requirements	Top management must demonstrate leadership and commitment with respect to customer focus by ensuring that: a) customer and applicable legal and regulatory requirements are determined, understood and consistently met; b) the risks and opportunities that can affect conformity of products and services and the ability to enhance customer satisfaction are determined and addressed; c) the focus on enhancing customer satisfaction is maintained.

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Customer focus is ensured by the implementation of the contract review processes set out in Section 8.2, (Requirements for products and services). We will ensure that customer, legal and regulatory requirements are defined and met during product / service provision.
2.	Risks and opportunities have been identified and are documented on the Master Risk Register (Doc Ref: MRRQMS).
3.	We will focus on maintaining customer satisfaction through the implementation of procedures documented under section 9.1.2 of this Quality Procedures Manual.

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

### 5 - MANAGEMENT RESPONSIBILITY

<b>5.2</b>	<b>Quality Policy</b>
Summary of Requirements	<p>Top management must establish, implement and maintain a quality policy that:</p> <ul style="list-style-type: none"><li>a) is appropriate to the purpose and context of the organisation and supports its strategic direction;</li><li>b) provides a framework for setting quality objectives;</li><li>c) includes a commitment to satisfy applicable requirements;</li><li>d) includes a commitment to continual improvement of the quality management system.</li></ul> <p>The quality policy must:</p> <ul style="list-style-type: none"><li>a) be available and be maintained as documented information;</li><li>b) be communicated, understood and applied within the organisation;</li><li>c) be available to relevant interested parties, as appropriate.</li></ul>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Our Quality Policy (Doc Ref: QPQMS) has been established and meets the requirements of the ISO 9001 Standard as stated above.
2.	Our Quality Policy has been communicated to all employees and we have documented confirmation signature of acceptance of their understanding of it.
3.	Our Quality Policy is displayed in our reception area, on workshop notice boards, on the company server so that it is available for any interested parties to view should they wish to do so and to promote our commitment to quality.

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

### 5 - MANAGEMENT RESPONSIBILITY

<b>5.3</b>	<b>Organisational roles, responsibilities and authorities</b>
Summary of Requirements	<p>Top management must ensure that the responsibilities and authorities for relevant roles are assigned, communicated and understood within the organisation.</p> <p>Top management must assign the responsibility and authority for:</p> <ul style="list-style-type: none"><li>a) ensuring that the quality management system conforms to the requirements of this International Standard;</li><li>b) ensuring that the processes are delivering their intended outputs;</li><li>c) reporting on the performance of the quality management system and on opportunities for improvement (see <a href="#">10.1</a>), in particular to top management;</li><li>d) ensuring the promotion of customer focus throughout the organisation;</li><li>e) ensuring that the integrity of the quality management system is maintained when changes to the quality management system are planned and implemented.</li></ul>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	The roles and responsibilities for individual job roles are defined and communicated upon commencement of employment.
2.	Overall roles and responsibilities are defined on the Company Organisation Chart (Doc Ref: OCQMS).
3.	We have assigned a Quality Manager / Representative (Ian Raphel) who is responsible for ensuring that the quality management system conforms to the requirements of the ISO 9001 Standard, that the processes are delivering their intended outputs, that the reporting on the performance of the quality management system and on opportunities for improvement, ensuring the promotion of customer focus and ensuring that the integrity of the quality management system is maintained when changes to the quality management system are planned and implemented.

## QUALITY PROCEDURES MANUAL

### 6 - PLANNING

<b>6.1</b>	<b>Actions to address risks and opportunities</b>
Summary of Requirements	<p>As part of the planning for our quality management system, we must consider the issues referred to in 4.1 and the requirements referred to in 4.2 and determine the risks and opportunities that need to be addressed to:</p> <ul style="list-style-type: none"> <li>a) give assurance that the quality management system can achieve its intended result(s);</li> <li>b) enhance desirable effects;</li> <li>c) prevent, or reduce, undesired effects;</li> <li>d) achieve improvement.</li> </ul> <p>We must then plan:</p> <ul style="list-style-type: none"> <li>a) actions to address these risks and opportunities;</li> <li>b) how to:             <ul style="list-style-type: none"> <li>1) integrate and implement the actions into our quality management system processes (see 4.4);</li> <li>2) evaluate the effectiveness of these actions.</li> </ul> </li> </ul> <p>The actions taken to address risks and opportunities must be proportionate to the potential impact on the conformity of products and services.</p>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	We have produced a Master Risk Register (Doc Ref: MRRQMS) that takes into account our internal and external issues as well as the interested parties to the business.
2.	The Master Risk Register (Doc Ref: MRRQMS) identifies the nature of the risk and whether any opportunities have arisen as a result of the handling of it.
3.	Risk is categorised based on its magnitude and impact to us and our quality management system.
4.	Where necessary, actions required in order to reduce the effects of risk or enhance an opportunity is documented.
5.	The responsibilities and authorities for the ownership of the risk is documented on the Master Risk Register (Doc Ref: MRRQMS).

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

### 6 - PLANNING

<b>6.1</b>	<b>Actions to address risks and opportunities</b>
------------	---

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

6.	Where possible we will eliminate risk. If this is not achievable we will mitigate risk to an acceptable level or else top management will make a decision as part of the management review process as to whether the risk is acceptable.
7.	We will evaluate the effectiveness of any actions taken to address risk and opportunities as part of the management review process. This evaluation is based on monitoring and measurement activities.
8.	Our Master Risk Register (Doc Ref: MRRQMS) will be reviewed at least annually or more frequently in the event of a change to our quality management system.

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

### 6 - PLANNING

6.2	<b>Quality objectives and planning to achieve them</b>
Summary of Requirements	<p>We must establish quality objectives at relevant functions, levels and processes as required for the quality management system to meet its intended outcomes.</p> <p>Our quality objectives will:</p> <ul style="list-style-type: none"> <li>a) be consistent with the quality policy;</li> <li>b) be measurable;</li> <li>c) take into account applicable requirements;</li> <li>d) be relevant to conformity of products / services and to enhancement of customer satisfaction;</li> <li>e) be monitored;</li> <li>f) be communicated;</li> <li>g) be updated as appropriate.</li> </ul> <p>We will maintain documented information on the quality objectives.</p> <p>When planning how to achieve our quality objectives, we will determine:</p> <ul style="list-style-type: none"> <li>a) what will be done;</li> <li>b) what resources will be required;</li> <li>c) who will be responsible;</li> <li>d) when it will be completed;</li> <li>e) how the results will be evaluated.</li> </ul>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	As part of our management review process, and taking into account our management system processes, we have established and documented Quality Objectives (Doc Ref: QOQMS).
2.	Our Quality Objectives (Doc Ref: QOQMS) will be discussed and communicated to all staff who will be informed of their role in achieving these objectives.
3.	Our performance against the documented Quality Objectives (Doc Ref: QOQMS) will be monitored as part of the management review process.
4.	Our Quality Objectives (Doc Ref: QOQMS) will be reviewed at least annually and will take into account any changes to our quality management system.

### 6 - PLANNING

<b>6.3</b>	<b>Planning of changes</b>
Summary of Requirements	<p>When we determine the need for changes to our quality management system, the changes must be carried out in a planned manner.</p> <p>We must consider:</p> <ol style="list-style-type: none"> <li>the purpose of the changes and their potential consequences;</li> <li>the integrity of the quality management system;</li> <li>the availability of resources;</li> <li>the allocation or reallocation of responsibilities and authorities.</li> </ol>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Any changes to our business that affect our quality management system in any way will be discussed as part of the management review process.
2.	The changes will be assessed for risk and the Master Risk Register (Doc Ref: MRRQMS) will be updated if necessary.
3.	<p>As a result of change we will assess whether the following have been affected:-</p> <ul style="list-style-type: none"> <li>• Our internal and external issues</li> <li>• Our interested parties</li> <li>• Risks and opportunities</li> <li>• Quality objectives</li> <li>• Roles, responsibilities and authorities</li> <li>• Resource requirements</li> </ul>
4.	The management review process will determine and provide the resource required and the allocation of responsibilities and authorities for the changes and the actions required to manage them.
5.	The actions carried out to address the changes will be reviewed to ensure that they were effective. This review will take place as part of the management review process.

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

8.	Daily / Weekly / Prior to use checks are carried out on all vehicles and records retained for inspection.
9.	Employees are supplied with IT and communication equipment required in order to report and liaise with the head office.
10.	Electrical equipment is PAT tested in order to ensure that it is safe for use.
11.	Hand tools are supplied as required to members of staff. It is the responsibility of the user to ensure that it is fit for purpose. If it is not then the tool will be taken out of service and replaced. Tools not fit for use will either be segregated or else disposed of to ensure they cannot be unintentionally used.
12.	PPE will be issued to all staff as required. They will sign their acceptance of receipt of the PPE and their understanding of its required use.
13.	Spill kits are available at the point where they are most likely to occur and members of staff trained to utilise them as required.
14.	First aid kits and fire-fighting equipment is available at points throughout our organisation where they are most likely to be needed.

### 7 - SUPPORT

<b>7.1</b>	<b>Resources (continued)</b>
<b>7.1.4</b>	<b>Environment for the operation of processes</b>
Summary of Requirements	<p>We must determine, provide and maintain the environment necessary for the operation of our processes and to achieve conformity of products / services.</p> <p>A suitable environment can be a combination of human and physical factors, such as:</p> <ul style="list-style-type: none"> <li>a) social (e.g. non-discriminatory, calm, non-confrontational);</li> <li>b) psychological (e.g. stress-reducing, burnout prevention, emotionally protective);</li> <li>c) physical (e.g. temperature, heat, humidity, light, airflow, hygiene, noise).</li> </ul>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	We operate a non-discriminatory policy to ensure that all members of staff or people operating on behalf of our company will never be unfairly discriminated against.
2.	Our directors / top management adopt an open door policy to ensure that any problems can be aired and solved to the agreement of all parties.
3.	We abide by the current government advice on the maximum weekly working hours to ensure that our staff remain fully capable and focussed.
4.	Temperature control is maintained to ensure that the office / warehouse / factory is comfortable in order to carry out the processes.
5.	The light is controlled to ensure that the working environment is adequate.
6.	Risk assessments have been compiled and communicated to all staff as appropriate for the office and site based activities.
7.	Noise levels are limited during night hours. Deliveries will only be accepted during the day to limit disruption to the local community.
8.	Cleaning resources are available to all staff as appropriate to need.
9.	Working conditions are monitored and maintained as required to ensure safe work.

### 7 - SUPPORT

<b>7.1</b>	<b>Resources (continued)</b>
<b>7.1.5</b>	<b>Monitoring and measuring resources</b>
<b>7.1.5.1</b>	<b>General</b>
Summary of Requirements	<p>We will determine and provide the resources needed to ensure valid and reliable results when monitoring or measuring is used to verify that our products / services meet their requirements.</p> <p>We will provide the resources and ensure that they:</p> <ul style="list-style-type: none"> <li>a) are suitable for the specific type of monitoring and measurement activities being undertaken;</li> <li>b) are maintained to ensure their continuing fitness for their purpose.</li> </ul> <p>We will retain appropriate documented information as evidence of fitness for purpose of the monitoring and measurement resources.</p>

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Monitoring and measurement resources are determined and documented within the Process Overview sheets (Doc Ref: POSQMS).
2.	Where human monitoring and measurement is required the members of staff carrying out the activity will be fully competent to do so and there will be records available to support their capabilities.
3.	Verification activities will be supported by records detailing the results of any checks carried out, by whom and when.
4.	Test equipment will be provided, as required, in order to facilitate monitoring and measurement.
5.	Servicing, calibration and maintenance of all equipment will take place in line with manufacturer's guidelines and records retained.
6.	Where regular servicing or calibration is a requirement the levels and schedule for that work is documented internally (Doc Ref: EMCRQMS).

## QUALITY PROCEDURES MANUAL

<b>8.3.4</b>	<b>Design and development controls</b>
Summary of Requirements	<p>We will apply controls to the design and development process to ensure that:</p> <ol style="list-style-type: none"> <li>a) the results to be achieved are defined;</li> <li>b) reviews are conducted to evaluate the ability of the results of design and development to meet requirements;</li> <li>c) verification activities are conducted to ensure that the design and development outputs meet the input requirements;</li> <li>d) validation activities are conducted to ensure that the resulting products and services meet the requirements for the specified application or intended use;</li> <li>e) any necessary actions are taken on problems determined during the reviews, or verification and validation activities;</li> <li>f) documented information of these activities is retained.</li> </ol>

<b>STATEMENT/PROCEDURE</b>
----------------------------

1.	<p>The following control activities are documented and monitored on the Product / Service Design Sheet (Doc Ref: P/SDSQMS) and cover the following:-</p> <ul style="list-style-type: none"> <li>• Results to be achieved from the design process</li> <li>• Design reviews (including progress and further action required)</li> <li>• Verification activities</li> <li>• Validation activities</li> </ul>
2.	<p>Further documented information may be utilised to provide evidence of verification that the design process meets the input requirements of the process eg design drawings, service specification etc.</p>
3.	<p>Validation activities will also take place to ensure that the final product / service design is sufficient in order to meet the requirements for its intended application or use. Validation may be in the form of a prototype, dummy service delivery, trial run, software validation tools, sample product etc.</p>

## 8 - OPERATION

<b>8.3</b>	<b>Design and development of products and services (continued)</b>
------------	--

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

<b>8.3.5</b>	<b>Design and development outputs</b>
Summary of Requirements	<p>We will ensure that our design and development outputs:</p> <ol style="list-style-type: none"> <li>a) meet the input requirements;</li> <li>b) are adequate for the subsequent processes for the provision of products and services;</li> <li>c) include or reference monitoring and measuring requirements, as appropriate, and acceptance criteria;</li> <li>d) specify the characteristics of the products and services that are essential for their intended purpose and their safe and proper provision.</li> </ol> <p>We will retain documented information on design and development outputs.</p>

<b>STATEMENT/PROCEDURE</b>
----------------------------

1.	The design and development process is finalised by ensuring that the outputs meet the input requirements. This is confirmed in the Outputs section of the Product / Service Design Sheet (Doc Ref: P/SDSQMS).
2.	The outputs must also ensure that we can carry out the service provision / production process and that the correct information is available to all interested parties.
3.	Monitoring and measurement requirements must also be available and could be in the form of a build list, instructions for use, method statements, work instruction, deliverables check list, final check instructions, tolerance measurements, service evaluation methods, test requirements etc.
4.	<p>Where certain characteristics of the product / service are essential we have recorded them on the outputs section of the Product / Service Design Sheet (Doc Ref: P/SDSQMS). These could include:-</p> <ul style="list-style-type: none"> <li>• Staff competency levels</li> <li>• Equipment performance levels</li> <li>• Quality requirements</li> <li>• Material specification</li> <li>• Handling and health and safety requirements</li> </ul>

## 8 - OPERATION

<b>8.3</b>	<b>Design and development of products and services (continued)</b>
<b>8.3.6</b>	<b>Design and development changes</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We will identify, review and control changes made during, or subsequent to, the design and development of products and services, to the extent necessary to ensure that there is no adverse impact on conformity to requirements.</p> <p>We will retain documented information on:</p> <ul style="list-style-type: none"><li>a) design and development changes;</li><li>b) the results of reviews;</li><li>c) the authorisation of the changes;</li><li>d) the actions taken to prevent adverse impacts.</li></ul>
-------------------------	---

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Changes to the design and development of a product / service will take place as a result of reviews carried out and in agreement with all parties to the process.
2.	Any changes to the design and development process will be made on the Product / Service Design Sheet (Doc Ref: P/SDSQMS).
3.	Where changes are made, the version in the header will be changed to the next sequential number. All previous electronic versions will be stored in an Archive folder for reference if required and everybody involved with the design process will be issued with the new version of the Product / Service Design Sheet (Doc Ref: P/SDSQMS). Hard copies will be recalled and disposed of accordingly.

## 8 - OPERATION

<b>8.4</b>	<b>Control of externally provided processes, products and services</b>
<b>8.4.1</b>	<b>General</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We must ensure that our externally provided processes, products and services conform to requirements.</p> <p>We must determine the controls to be applied to externally provided processes, products and services when:</p> <ul style="list-style-type: none"> <li>a) products and services from external providers are intended for incorporation into our own products and services;</li> <li>b) products and services are provided directly to the customer(s) by external providers on our behalf;</li> <li>c) a process, or part of a process, is provided by an external provider as a result of our decision.</li> </ul> <p>We shall determine and apply criteria for the evaluation, selection, monitoring of performance, and re-evaluation of external providers, based on their ability to provide processes or products and services in accordance with requirements. We must retain documented information of these activities and any necessary actions arising from the evaluations.</p>
-------------------------------	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	All externally provided processes, products and services are controlled through our operational procedures.
2.	The suppliers of outsourced processes, products and services will be subject to approval criteria. This criteria will be defined on the Supplier Approval Record (Doc Ref: SARQMS).
3.	Any actions required to obtain approval against the documented criteria will be carried out prior to utilising them. Use of unapproved suppliers for quality critical processes, products or services will only take place as a result of written authorisation from top management based on an informed decision of the risk associated with using them without formal approval.
4.	All approved suppliers will be placed into the Approved Supplier List (Doc Ref: ASLQMS).

## 8 - OPERATION

<b>8.4</b>	<b>Control of externally provided processes, products and services (continued)</b>
<b>8.4.2</b>	<b>Type and extent of control</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We will ensure that externally provided processes, products and services do not adversely affect our ability to consistently deliver conforming products and services to our customers.</p> <p>We will:</p> <ul style="list-style-type: none"> <li>a) ensure that externally provided processes remain within the control of our quality management system;</li> <li>b) define both the controls that we intend to apply to an external provider and those we intend to apply to the resulting output;</li> <li>c) take into consideration:             <ul style="list-style-type: none"> <li>1) the potential impact of the externally provided processes, products and services on our ability to consistently meet customer and applicable legal and regulatory requirements;</li> <li>2) the effectiveness of the controls applied by the external provider;</li> </ul> </li> <li>d) determine the verification, or other activities, necessary to ensure that the externally provided processes, products and services meet requirements.</li> </ul>
-------------------------	---

<b>STATEMENT/PROCEDURE</b>
----------------------------

1.	All externally provided processes, products and services are controlled through our operational procedures and as stated on the Supplier Approval Record (Doc Ref: SARQMS).
2.	Control and monitoring methods will be reviewed as part of the management review process or more frequently based on the criticality and previous history of the product / service provision.
3.	Where control procedures and monitoring and measurement identify areas for concern or non-conformance then the impact of the issue will determine the continued use of that provider. A record of any actions including communication to all interested parties will be retained.

## 8 - OPERATION

<b>8.4</b>	<b>Control of externally provided processes, products and services (continued)</b>
<b>8.4.3</b>	<b>Information for external providers</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We will ensure the adequacy of requirements prior to their communication to the external provider.</p> <p>We will communicate our requirements to external providers for:</p> <ul style="list-style-type: none"> <li>a) the processes, products and services to be provided;</li> <li>b) the approval of:             <ul style="list-style-type: none"> <li>1) products and services;</li> <li>2) methods, processes and equipment;</li> <li>3) the release of products and services;</li> </ul> </li> <li>c) competence, including any required qualification of persons;</li> <li>d) the external providers' interactions with us;</li> <li>e) their control and monitoring of performance to be applied by us;</li> <li>f) verification or validation activities that we, or our customers, intend to perform at their premises.</li> </ul>
-------------------------	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	We will ensure that we define the requirements related to the product or service that we are procuring based on the requirements specified in the Process Overview Sheet (Doc Ref: POSQMS), or by specific customer requirements.
2.	A detailed Purchase Order, Request for Tender, Service Level Agreement, will be issued to the supplier / sub-contractor to confirm the exact specification of the items we wish to procure which take into account the all or some of the requirements contained within the "Summary of Requirements" above.

## 8 - OPERATION

<b>8.5</b>	<b>Production and service provision</b>
<b>8.5.1</b>	<b>Control of production and service provision</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We will implement production and service provision under controlled conditions, which will include as applicable:</p> <ul style="list-style-type: none"> <li>a) the availability of documented information that defines:             <ul style="list-style-type: none"> <li>1) the characteristics of the products to be produced, the services to be provided, or the activities to be performed;</li> <li>2) the results to be achieved;</li> </ul> </li> <li>b) the availability and use of suitable monitoring and measuring resources;</li> <li>c) the implementation of monitoring and measurement activities at appropriate stages to verify that criteria for control of processes or outputs, and acceptance criteria for products and services, have been met;</li> <li>d) the use of suitable infrastructure and environment for the operation of processes;</li> <li>e) the appointment of competent persons, including any required qualification;</li> <li>f) the validation, and periodic revalidation, of the ability to achieve planned results of the processes for production and service provision, where the resulting output cannot be verified by subsequent monitoring or measurement;</li> <li>g) the implementation of actions to prevent human error;</li> <li>h) the implementation of release, delivery and post-delivery activities.</li> </ul>
-------------------------------	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	We have in place, documented information that reflects the exact specification of our product / service. This specification can be used as a reference point to determine the requirements that must be fulfilled.
2.	All of the required control conditions for each process within the organisation will be determined and implemented in line with the Process Overview Sheets (Doc Ref: POSQMS) and their supporting procedures, measurements, documents and records.

## 8 - OPERATION

<b>8.5</b>	<b>Production and service provision (continued)</b>
<b>8.5.2</b>	<b>Identification and traceability</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We will use suitable means to identify outputs when it is necessary to ensure the conformity of products and services and will identify the status of outputs with respect to monitoring and measurement requirements throughout production and service provision.</p> <p>The unique identification of outputs will also be controlled when traceability is a requirement, and shall retain the documented information necessary to enable traceability.</p>
-------------------------	---

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	The status of the outputs of our processes will be controlled throughout the production / service provision process in line with planned arrangements in clause 8.1.
2.	The status of all service provision will be clearly defined to ensure we know exactly what we have completed and what is left to be fulfilled. If required, we will hold progress meetings to discuss the status of the service.
3.	All component parts used in the production processes will be clearly identified in their designated storage areas.
4.	Build lists will accompany the product throughout its production to define the exact status of its completion and the identity of those who have completed the various stages.
5.	We will carry out batch tests either as defined by the customer or by our internal process controls. Test samples and their results will be retained and documented as required to enable traceability.

## 8 - OPERATION

<b>8.5</b>	<b>Production and service provision (continued)</b>
<b>8.5.3</b>	<b>Property belonging to customers or external providers</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We will exercise care with property belonging to our customers or external providers while it is under our control or being used by us.</p> <p>We will identify, verify, protect and safeguard our customers' or external providers' property provided for use or incorporation into the products and services.</p> <p>When the property of a customer or external provider is lost, damaged or otherwise found to be unsuitable for use, we will report this to the customer or external provider and retain documented information on what has occurred.</p> <p>NB: A customer's or external provider's property can include material, components, tools and equipment, premises, intellectual property and personal data.</p>
-------------------------------	---

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Customer and supplier details will be stored securely on our internal software and accounts packages and will not be released to any third party without prior permission from the customer or supplier.
2.	Should there be a breach of our IT systems and customer or supplier data has been compromised then they will be informed immediately of the breach and its possible repercussions.
3.	Physical property provided to us from the customer or supplier will be clearly labelled and stored in order to protect it and facilitate its retrieval if required.
4.	If the customer or supplier property is to be used in the final product / service that we provide then we will verify its suitability to do so. If it is not suitable we will contact the customer or supplier immediately to confirm that this is the case and discuss a contingency.
5.	If customer or supplier property has been lost or damaged whilst in our custody we will immediately inform the customer or supplier and instigate the non-conformance procedure and implement appropriate corrective action.

## 8 - OPERATION

<b>8.5</b>	<b>Production and service provision (continued)</b>
<b>8.5.4</b>	<b>Preservation</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We will preserve our products / services during production / service provision, to the extent necessary to ensure conformity to requirements.</p> <p>NB: Preservation can include identification, handling, contamination control, packaging, storage, transmission or transportation, and protection.</p>
-------------------------------	---

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Our product will be packed and labelled as required, including instructions for use, where appropriate.
2.	All handling will be carried out in line with safe procedures and all members of staff carrying out these activities will be suitably trained to do so.
3.	Our control procedures will include the prevention of contamination of the product during production.
4.	The packaging we use will be in line with the current Waste Packaging Regulations and sufficient in order to protect the product during processing and delivery.
5.	Where the product and its component parts are stored by us, we shall ensure this is done so in an area where its integrity cannot be compromised.
6.	Where required, packaging will be labelled to provide instruction to the carriers for the safe transportation of the product to the customer.
7.	Any transmission of data or information will be sent through a secure method and to an agreed destination email address. Adequate firewalls and anti-virus software will be utilised to monitor all incoming and outgoing files. Where necessary we will also encrypt / password protect files in line with the level of confidentiality required.

## 8 - OPERATION

<b>8.5</b>	<b>Production and service provision (continued)</b>
<b>8.5.5</b>	<b>Post-delivery activities</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We will meet requirements for post-delivery activities associated with our products / services.</p> <p>In determining the extent of post-delivery activities that are required, we will consider:</p> <ul style="list-style-type: none"> <li>a) legal and regulatory requirements;</li> <li>b) the potential undesired consequences associated with our products / services;</li> <li>c) the nature, use and intended lifetime of our products and services;</li> <li>d) customer requirements;</li> <li>e) customer feedback.</li> </ul>
-------------------------	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Our product will include safe operating instructions (including the need for additional personal protective equipment) for the end user.
2.	The product will also include instructions for the intended use, operating limit and lifetime expectancy of the product.
3.	We will instruct the end user on how to avoid damage to the product or within its intended application during use.
4.	Warranty conditions and instructions for claim will be clear and concise.
5.	Where required registration instructions will be clear and concise.
6.	Where legal or regulatory requirements stipulate a sign off or inspection then this will be carried out as required and at the appropriate timescales and stages of production / service provision.
7.	Service and maintenance requirements (including those within a service agreement with the customer) for the product will be clearly defined.
8.	We will obtain customer feedback as defined during the planning process in clause 8.1 and all feedback will be monitored in line with clause 9.1.2.

## 8 - OPERATION

<b>8.5</b>	<b>Production and service provision (continued)</b>
<b>8.5.6</b>	<b>Control of changes</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We will review and control changes for production or service provision, to the extent necessary to ensure continuing conformity with requirements.</p> <p>We will retain documented information describing the results of the review of changes, the person(s) authorising the change, and any necessary actions arising from the review.</p>
-------------------------	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Where changes arise with regard to the production / service provision, we will ensure that these changes are communicated to all interested parties prior to their implementation.
2.	The impact of the changes will be reviewed based on the feedback from interested parties. This feedback can be retained by way of email, meetings, letters, reports etc.
3.	Once a review has taken place and it is confirmed that conformity to all requirements can be maintained, then the changes will be authorised by the appointed authority internally and also, if required, by the customer or other legal or regulatory body.
4.	Actions must then be implemented in line with the authorised arrangements.

## 8 - OPERATION

<b>8.6</b>	<b>Release of products and services</b>
Summary of Requirements	We will implement planned arrangements, at appropriate stages, to verify that the product / service requirements have been met.

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

	<p>The release of product / service to the customer will not proceed until the planned arrangements have been satisfactorily completed, unless otherwise approved by a relevant authority and, as applicable, by the customer.</p> <p>We will retain documented information on the release of products and services which will include:</p> <ul style="list-style-type: none"> <li>a) evidence of conformity with the acceptance criteria;</li> <li>b) traceability to the person(s) authorising the release.</li> </ul>
--	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	As part of the packing process there will be a final check on the product to ensure that it is as per the ordered specification and that there is no obvious sign of weakness or damage with the product or its packaging. A final sign off will be recorded by the person checking the product prior to despatch.
2.	Project stage completions will be inspected and signed off, as required and as defined in the planning stages in clause 8.1. Evidence will be retained by way of photographic evidence, inspection reports, meeting minutes etc. The signature of the authorising person(s) will be retained as confirmation of stage completion.
3.	Service provision will be confirmed as complete and meeting customer requirements by the final sign off from the customer to confirm that they are happy with the service received and that we have met their requirements.

## 8 - OPERATION

<b>8.7</b>	<b>Control of nonconforming outputs</b>
Summary of Requirements	We will ensure that any results from a process that do not conform to their requirements are identified and controlled to prevent their unintended use or delivery.

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

	<p>We will take appropriate action based on the nature of the nonconformity and its effect on the conformity of products / services. This will apply to nonconforming products and services detected after delivery of products / during or after the provision of services.</p> <p>We will deal with nonconforming results in one or more of the following ways:</p> <ul style="list-style-type: none"> <li>a) correction;</li> <li>b) segregation, containment, return or suspension of provision of products / services;</li> <li>c) informing the customer;</li> <li>d) obtaining authorisation for acceptance under concession.</li> </ul> <p>We will verify conformity to requirements when nonconforming results are corrected.</p> <p>We will retain documented information that:</p> <ul style="list-style-type: none"> <li>a) describes the nonconformity;</li> <li>b) describes the actions taken;</li> <li>c) describes any concessions obtained;</li> <li>d) identifies the authority deciding the action in respect of the nonconformity.</li> </ul>
--	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Where we have identified a non-conforming product we will immediately segregate and label it to ensure that it is not used as part of any other process or released to the customer.
2.	The nature of the identified non-conformance will be communicated to a person with the authority to deal with the item.
3.	Where we have identified a non-conforming service we will assess the nature and severity of the non-conformance and make an informed decision as to whether we must stop the service immediately or continue under concession. This decision must be made by an appropriate authority and, where applicable by the customer.

## 8 - OPERATION

<b>8.7</b>	<b>Control of nonconforming outputs</b>
------------	---

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

4.	A Non-Conformance and Corrective Report (Doc Ref: NCCARQMS) will be filled out to describe the nature of the non-conformance.
5.	An immediate decision will be made as to how we will deal with the non-conformance and this decision will be recorded on the Non-Conformance and Corrective Action Report (Doc Ref: NCCARQMS).
6.	Where the action required is to correct the non-conformance then we will verify the results and confirm that they now meet requirements.
7.	Any concessions received as a result of the non-conformance will be recorded on the Non-Conformance and Corrective Action Report (Doc Ref NCCARQMS).
8.	A signature is required on the Non-Conformance and Corrective Action Report (Doc Ref NCCARQMS) to confirm the identity of the person implementing any actions and, if different, the identity of the person authorising those actions.

## 9 - PERFORMANCE EVALUATION

<b>9.1</b>	<b>Monitoring, measurement, analysis and evaluation</b>
<b>9.1.1</b>	<b>General</b>
Summary of Requirements	We will determine: a) what needs to be monitored and measured;

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

	<p>b) the methods for monitoring, measurement, analysis and evaluation needed to ensure valid results;</p> <p>c) when the monitoring and measuring will be performed;</p> <p>d) when the results from monitoring and measurement will be analysed and evaluated.</p> <p>We will evaluate the performance and the effectiveness of the quality management system and retain appropriate documented information as evidence of the results.</p>
--	---

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	Our Process Overview Sheets (Doc Ref: POSQMS) define the requirements for the monitoring and measurement of each of our processes.
2.	The monitoring and measurement of our processes will be varied dependent upon the methods defined within the Process Overview Sheets (Doc Ref: POSQMS).
3.	Performance evaluation will take place as part of the management review process. Process performance will be measured against our documented Quality Objectives and against the intended results of those processes.
4.	Performance evaluation will enable us to make informed decisions with respect to the continual improvement of our quality management system.

## 9 - PERFORMANCE EVALUATION

<b>9.1</b>	<b>Monitoring, measurement, analysis and evaluation</b>
<b>9.1.2</b>	<b>Customer satisfaction</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	We will monitor our customers' perceptions of how well we have met their needs and expectations. We will determine the most suitable methods for obtaining, monitoring and reviewing this information.
-------------------------	--

<b>STATEMENT/PROCEDURE</b>
----------------------------

1.	Perceived levels of customer satisfaction will be obtained by one or more of the following methods:- <ul style="list-style-type: none"><li>• Issuing and receiving customer satisfaction surveys</li><li>• Issuing service user feedback surveys</li><li>• Customer meeting minutes</li><li>• Email correspondence</li><li>• Warranty analysis</li><li>• Non-conformance analysis</li><li>• Market share analysis</li><li>• Compliments and recommendations</li><li>• Snagging lists.</li></ul>
2.	Customer feedback and perceived levels of satisfaction will be monitored and reviewed as part of the management review process.
3.	Where a review of negative feedback is carried, out and it is deemed warranted, we will instigate the non-conformance process.

## 9 - PERFORMANCE EVALUATION

9.1	<b>Monitoring, measurement, analysis and evaluation</b>
9.1.3	<b>Analysis and evaluation</b>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

Summary of Requirements	<p>We will analyse and evaluate appropriate data and information arising from monitoring and measurement.</p> <p>The results of analysis shall be used to evaluate:</p> <ol style="list-style-type: none"> <li>a) conformity of products and services;</li> <li>b) the degree of customer satisfaction;</li> <li>c) the performance and effectiveness of the quality management system;</li> <li>d) if planning has been implemented effectively;</li> <li>e) the effectiveness of actions taken to address risks and opportunities;</li> <li>f) the performance of external providers;</li> <li>g) the need for improvements to the quality management system.</li> </ol>
-------------------------------	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	<p>As a result of the monitoring and measurement carried out in line with the Process Overview Sheets (Doc Ref: POSQMS2018V2), we will take the data and present it in a format that can be interpreted and presented for evaluation. This format could include:-</p> <ul style="list-style-type: none"> <li>• Charts</li> <li>• Graphs</li> <li>• Tables</li> <li>• Reports</li> <li>• Meeting minutes</li> <li>• Check sheets</li> </ul>
2.	<p>Evaluation will take place as part of the management review process and will enable an informed decision making process.</p>

## 9 - PERFORMANCE EVALUATION

<b>9.2</b>	<b>Internal audit</b>
Summary of Requirements	<p>We will conduct internal audits at planned intervals to provide information on whether our quality management system:</p> <ol style="list-style-type: none"> <li>a) conforms to:</li> </ol>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

	<p>1) our own requirements for our quality management system;                  2) the requirements of the ISO 9001 Standard;                  b) is effectively implemented and maintained.</p> <p>We will:</p> <p>a) plan, establish, implement and maintain an audit programme(s) including the frequency, methods, responsibilities, planning requirements and reporting, which shall take into consideration the importance of the processes concerned, changes affecting our organisation, and the results of previous audits;                  b) define the audit criteria and scope for each audit;                  c) select auditors and conduct audits to ensure objectivity and the impartiality of the audit process;                  d) ensure that the results of the audits are reported to relevant management;                  e) take appropriate correction and corrective actions without undue delay;                  f) retain documented information as evidence of the implementation of the audit programme and the audit results.</p>
--	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	An Internal Audit Schedule (Doc Ref: AMPAQMS) has been established to confirm the audits that are to be carried out to check that our quality management system meets the ISO 9001 and our requirements.
2.	The Internal Audit Schedule (Doc Ref: AMPAQMS) describes the process to be audited, the identity of the auditor, the clauses relative the ISO 9001 Standard that will be covered and the month in which the audit will take place.
3.	The Internal Audit Schedule (Doc Ref: AMPAQMS) can be amended in the event of changes to the quality management system or when deficient areas were identified during previous audits.
4.	For every audit we will establish an Internal Audit Checklist (Doc Ref: IACQMS) which will describe what we want to check, how we want to check it and who we want to check it with.

## 9 - PERFORMANCE EVALUATION

<b>9.2</b>	<b>Internal audit</b>
------------	-----------------------

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

5.	Auditors will be selected to ensure that they do not audit their own work.
6.	The audit results and findings will be recorded on the Internal Audit Checklist (Doc Ref: IACQMS).
7.	Where actions are required to rectify any findings they will be recorded on a Non Conformance and Corrective Action Report (Doc Ref: NCCARQMS). The unique reference number of that report will be recorded and the report attached to the Internal Audit Checklist for reference.
8.	Any corrections and corrective actions (if applicable) that are to be implemented will be done so in line with the severity of the non-conformance.
9.	The results of all audits will be reported to a member of management who will review the adequacy of the audit and its findings as well as the implementation of any required corrections and corrective actions (if applicable).

## 9 - PERFORMANCE EVALUATION

<b>9.3</b>	<b>Management review</b>
<b>9.3.1</b>	<b>General</b>
Summary of Requirements	Top management will review our quality management system, at planned intervals, to ensure its continuing suitability, adequacy, effectiveness and alignment with the strategic direction of our organisation.

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

	STATEMENT/PROCEDURE
1.	Management reviews will be carried out on an Annual basis to review the effectiveness of our quality management system during the previous review period.
2.	The management review will be attended by top management (or members thereof) to ensure that the management system is being operated in alignment with the strategic direction of the company.
3.	The management review will also be attended by the person(s) responsible for reporting on the performance of the quality management system and on opportunities for improvement as defined in clause 5.3.
4.	Where actions are required in order to improve or correct the quality management system they will be defined as management review outputs in clause 9.3.3.

## 9 - PERFORMANCE EVALUATION

<b>9.3</b>	<b>Management review</b>
<b>9.3.2</b>	<b>Management review inputs</b>
Summary of Requirements	The management review shall be planned and carried out taking into consideration: a) the status of actions from previous management reviews; b) changes in external and internal issues that are relevant to the quality management system;

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

	<p>c) information on the performance and effectiveness of the quality management system, including trends in:</p> <ol style="list-style-type: none"> <li>1) customer satisfaction and feedback from relevant interested parties;</li> <li>2) the extent to which quality objectives have been met;</li> <li>3) process performance and conformity of products and services;</li> <li>4) nonconformities and corrective actions;</li> <li>5) monitoring and measurement results;</li> <li>6) audit results;</li> <li>7) the performance of external providers;</li> </ol> <p>d) the adequacy of resources;</p> <p>e) the effectiveness of actions taken to address risks and opportunities (see 6.1);</p> <p>f) opportunities for improvement.</p>
--	---

2.	All agenda items will be considered and where applicable evidence will be presented for consideration and discussion during the management review.

## 9 - PERFORMANCE EVALUATION

<b>9.3</b>	<b>Management review</b>
<b>9.3.3</b>	<b>Management review outputs</b>
Summary of Requirements	<p>The outputs of the management review will include decisions and actions related to:</p> <ol style="list-style-type: none"> <li>a) opportunities for improvement;</li> <li>b) any need for changes to the quality management system;</li> <li>c) resource needs.</li> </ol>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

	We will retain documented information as evidence of the results of management review.
--	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	The outputs from the management review will form the meeting minutes to describe any actions that are to be implemented along with the responsibilities and timescales for their implementation.
2.	The outputs from the current management review will form a basis for discussion at the next management review to ensure that actions have been addressed, as required.
3.	Management review records will be retained for reference and inspection.

## 10 - IMPROVEMENT

<b>10.1</b>	<b>General</b>
Summary of Requirements	<p>We will determine and select opportunities for improvement and implement any necessary actions to meet customer requirements and enhance customer satisfaction.</p> <p>These will include:</p> <ul style="list-style-type: none"><li>a) improving products and services to meet requirements as well as to address future needs and expectations;</li><li>b) correcting, preventing or reducing undesired effects;</li></ul>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

	c) improving the performance and effectiveness of the quality management system.
--	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	<p>We will identify opportunities for improvement through the monitoring and measurement processes carried out. Actions to address opportunities for improvement will be found in our:-</p> <ul style="list-style-type: none"> <li>• Management Review Minutes</li> <li>• Internal Audit Reports</li> <li>• Non-conformance and Corrective Action Reports</li> <li>• Master Risk Register</li> </ul>
----	--

## 10 - IMPROVEMENT

<b>10.2</b>	<b>Nonconformity and corrective action</b>
Summary of Requirements	<p>When a nonconformity occurs, including any arising from complaints, we will:</p> <ol style="list-style-type: none"> <li>a) react to the nonconformity and, as applicable:             <ol style="list-style-type: none"> <li>1) take action to control and correct it;</li> <li>2) deal with the consequences;</li> </ol> </li> <li>b) evaluate the need for action to eliminate the cause(s) of the nonconformity, in order that it does not happen again, by:             <ol style="list-style-type: none"> <li>1) reviewing and analysing the nonconformity;</li> <li>2) determining the causes of the nonconformity;</li> </ol> </li> </ol>

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

	<p>3) determining if similar nonconformities exist, or could potentially occur;</p> <p>c) implement any action needed;</p> <p>d) review the effectiveness of any corrective action taken;</p> <p>e) update risks and opportunities determined during planning, if necessary;</p> <p>f) make changes to the quality management system, if necessary.</p> <p>Corrective actions must be appropriate to the effects of the nonconformities encountered.</p> <p>We will retain documented information as evidence of:</p> <p>a) the nature of the nonconformities and any subsequent actions taken;</p> <p>b) the results of any corrective action.</p>
--	---

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

1.	<p>A Non-conformance and Corrective Action Report (Doc Ref: NCCARQMS) will be completed when we have identified one or more of the following:-</p> <ul style="list-style-type: none"> <li>• not meeting our customers' requirements</li> <li>• not meeting our own internal requirements</li> <li>• suppliers not meeting our requirements</li> <li>• members of staff or subcontracted staff not working to our policies or procedures</li> <li>• our breach of legal or regulatory requirements.</li> </ul>
2.	<p>Where a non-conformance is identified, the person who identified the non-conformance will record the details on Part 1 of the Non-conformance and Corrective Action Report (Doc Ref: NCCARQMS) and pass it on to the immediate manager.</p>

## 10 - IMPROVEMENT

<b>10.2</b>	<b>Nonconformity and corrective action</b>
-------------	--

	<b>STATEMENT/PROCEDURE</b>
--	----------------------------

3.	<p>A decision will be made as to how to correct the issue immediately and this decision will be communicated to all interested parties associated with that non-conformity.</p>
----	---

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL

4.	The correction will be authorised by a member of staff with the authority to do so prior to any action commencing.
5.	A decision will then be made as to whether corrective action must be formulated to prevent recurrence of this non-conformance. This decision will be confirmed on the Non-conformance and Corrective Action Report (Doc Ref: NCCARQMS).
6.	Root cause analysis will be carried out to find the source of the problem and whether any similar non-conformities have occurred or could potentially occur.
7.	Once we have sourced the root cause of the problem we will establish the required action to attempt to eliminate or mitigate the risk of the non-conformance happening again. The nature and extent of this action must be proportionate to the level of the non-conformance.
8.	Implementation of the action will then take place by the appointed person responsible for doing so.
9.	Once implemented we will review the implementation to ensure that it has worked. This review will be confirmed by the final sign off of the Non-conformance and Corrective Action Report (Doc Ref: NCCARQMS).
10.	The Master Risk Register (Doc ref: MRRQMS) will be updated to reflect any risks and opportunities that have been identified during the non-conformance process.
11.	All Non-conformance and Corrective Action Reports (Doc Ref: NCCARQMS) will be reviewed as part of the management review process.

## 10 - IMPROVEMENT

<b>10.3</b>	<b>Continual improvement</b>
Summary of Requirements	We will continually improve the suitability, adequacy and effectiveness of our quality management system. To do this we will consider the results of analysis and evaluation, and the outputs from management review, to determine if there are needs or opportunities that shall be addressed as part of continual improvement.

<b>STATEMENT/PROCEDURE</b>
----------------------------

# Evolution Fasteners (UK) Ltd

## QUALITY PROCEDURES MANUAL
